

BSI Training Academy

Your complete guide to
ISO/DIS 45001.2 training

bsi.

...making excellence a habit.™

ISO/DIS 45001.2 – Understanding the new international standard for occupational health & safety

ISO 45001, the first global Occupation Health and Safety (OH&S) management system standard is now in the final stages of development as the second Draft International Standard (DIS) has been published. ISO 45001 is intended to replace the widely implemented BS OHSAS 18001. It is anticipated that organizations currently certified to BS OHSAS 18001 will need to migrate to ISO 45001 within three years of the new standard's publication, when BS OHSAS 18001 is likely to be withdrawn.

If you are involved in the planning, implementing, or supervising of an ISO 45001 management system, then this course will help you to understand and recognize the key differences between BS OHSAS 18001 and

What our customers tell us as a result of implementing and adopting occupational health and safety management:

Reduce work related injuries

Eliminate or minimize OH&S risks

Protect brand reputation

Motivate and engage staff through consultation and participation

Why make BSI your first choice for ISO/DIS 45001.2 training

Our tutors

When it comes to teaching how to make standards work, our tutors are the best in the business. As experienced assessors with years of hands-on business and industry experience, they understand the challenges you're most likely to face. They are passionate about standards and have a proven ability to facilitate great learning.

Our expertise

As the world's first National Standards Body and a founding member of ISO, no one knows standards like BSI. And when you train with us you benefit from this experience. You can trust us to say we know what we're talking about and you'll benefit from a premium learning experience. When it comes to standards even our competitors choose us.

Our approach Accelerated Learning

We really understand how training works and that everyone learns and retains knowledge differently. Based on the latest research, our accelerated learning approach is proven to fast-track learning, improve knowledge retention and ensure you can apply your knowledge straight away. We constantly evaluate our results based on your satisfaction and success rate, to provide the best training experience in the industry.

Our solution

We provide a proven pathway to success, wherever you are in your training journey. So whether you want to build your knowledge, learn how to implement or how to audit and improve your management system, we have the right solution for you. You'll also learn right beside your peers; we'll discuss real-world challenges and share best practice based on over 100 years' experience.

Why invest in training from BSI?

When you attend a BSI training course, our tutors are the best in the business. They're truly passionate about sharing their knowledge and ensuring you learn. Trusted experts with years of hands-on and business experience,

they bring the subject matter to life with relevant and contemporary examples that means you can focus on learning.

Public Training Courses are available

Network and learn best practices from a variety of sectors with our diversified schedule of courses and locations.

ISO/DIS 45001.2 Migration training course

Level

Delegates should already be familiar with BS OHSAS 18001 and by attending you'll be able to identify gaps in your current system ahead of migrating to ISO 45001. This one-day course is packed with practical activities, group discussion, and classroom learning to help you identify what needs to be revised in your current OH&S management system. You will learn about the new ISO high level structure that now applies to all new management system standards, particularly new requirements relating to Context, Leadership, Planning, Support and Operation.

Our course agenda*

- Welcome and introductions
- Course aims, objectives and structure
- Annex SL – Appendix 2 introduction and framework
- Annex SL – Appendix 2 terms and definitions
- Annex SL – Appendix 2 clause by clause
- Annex SL – Appendix 2 v ISO/DIS 45001.2 clause structure
- ISO/DIS 45001.2 - Key perspectives, principles, emerging developments, terms and definitions
- Comparison between OHSAS 18001:2007 and ISO/DIS 45001.2
- Summary of key changes
- ISO 45001 timeline and further information
- Reflection/course review and final questions

*If you have previously attended one of our ISO/IEC 27001:2013, ISO 9001:2015 or ISO 14001:2015 Transition courses, you may opt out of the morning session of this course, which covers the high level structure.

Make sure this is the right course for you.

This is the course for you if:

- You are involved in the planning, implementing, or supervising or auditing of an ISO 45001 migration
- You already have a good understanding of OHSAS 18001

What is the course like?

- 1 day long
- Led by a BSI expert tutor
- Relaxed and comfortable learning environment
- You will receive comprehensive course materials to take away

How will I benefit?

- Understand what needs to be revised in your current OH&S management system
- Identify the key differences between OHSAS 18001 and ISO/DIS 45001.2
- Find out about BSI migration arrangements
- Develop professionally
- Network with likeminded peers
- Receive a BSI certificate

ISO/DIS 45001.2 **Seminar** training course

Level **1C**

This lecture-based learning session is led by our expert tutors who have years of experience of working in the field of OH&S. They will provide you with an insight into the ISO 45001 development process and highlight the envisaged differences between OHSAS 18001 and ISO 45001. This will help you understand how migrating to ISO 45001 will help minimize OH&S risks and what BSI certification migration requirements are.

Our full course agenda helps you understand what to expect:

- Welcome and introductions
- Seminar aim and structure
- ISO facts
- ISO 45001 development process
- Key perspectives & what was considered
- Emerging changes
- High level & OH&S structure
- Common terms & core definitions
- Areas of contention during development
- Key envisaged differences
- ISO 45001 timeline & certification migration
- Reflection and feedback

Make sure this is the right course for you.

This is the course for you if:

- You are involved in the future planning, implementing, maintaining, or auditing of an ISO 45001 management system
- You already have a good understanding of OHSAS 18001

What is the course like?

- 3-hours long, plus time for questions
- Led by a BSI expert tutor
- Relaxed and comfortable learning environment

How will I benefit?

- Gain an insight into the ISO 45001 development process
- Identify the differences between OHSAS 18001 and ISO/DIS 45001.2
- Find out about BSI migration arrangements
- Develop professionally
- Network with likeminded peers
- Receive a BSI certificate

ISO/DIS 45001.2 **Implementing changes** training course

Level **1 C 2 C**

This 1-day course is packed with practical activities, group discussion, and classroom learning to help you retain the knowledge to implement an effective OH&S management system. Make sure this is the right course for you.

This is the course for you if:

- You have already attended our 3-hour ISO/DIS 45001.2 migration seminar, or our one day migration course.
- You are/will be involved in the planning, implementing, or supervising of an ISO 45001 migration
- You already have a good understanding of OHSAS 18001

What is the course like?

- 1 day long
- Led by a BSI expert tutor
- Relaxed and comfortable learning environment
- You will receive a useful implementation toolkit

How will I benefit?

- Understand what needs to be revised in your current management system
- Identify the differences between OHSAS 18001 and ISO/DIS 45001.2 from an implementation perspective
- Find out about BSI migration arrangements
- Develop professionally
- Network with likeminded peers
- Receive a BSI certificate

Why BSI?

BSI has been at the forefront of the development of ISO 45001, from the start; BSI proposed its development and has run the international secretariat supporting the project committee which is developing the standard. Its origins are based on OHSAS 18001, the world renowned health & safety management system which was developed by BSI in 1999. That's why we're best placed to help you understand the new standard.

At BSI we create excellence by driving the success of our clients through standards. We enable others to perform better, manage risk and achieve sustainable growth. For over a century our experts have been challenging mediocrity and complacency to help embed excellence into the way people and products work. We make excellence a habit.

Our products and services

We provide a unique combination of complementary products and services, managed through our three business streams; Knowledge, Assurance and Compliance.

Knowledge

BSI works with business experts, government bodies, trade associations and consumer groups to capture best practice and structure the knowledge all organizations need to succeed. The majority of the widely used and implemented international standards were originally shaped by BSI, for example ISO 9001 – Quality Management and ISO 14001 – Environmental Management.

Assurance

Independent assessment of the conformity of a process or product to a particular standard ensures that our clients perform to a high level of excellence. We help our clients understand how they are performing, thereby identifying areas of improvement from within.

Compliance

To experience real, long-term benefits, our clients need to ensure on-going compliance to a standard so that it becomes an embedded habit. We train our clients to understand standards and how to implement them, as well as provide services and differentiated management tools to facilitate the process of on-going compliance.
