IATF 16949:2016 **Second-party Auditor** training course

Essential information about the course

Level **1 C 2 C 3**

IATF 16949:2016 is the globally recognized Quality Management System (QMS) standard for the automotive industry. That's why organizations throughout the automotive supply chain invest in training their people so they have the skills and the knowledge to benefit from it.

If you are involved in conducting second-party audits for supplier monitoring and supplier QMS development, then this course is for you. Delegates

should already have a thorough understanding of IATF 16949, and have attended our internal auditor training course. Using a step-by-step approach, you'll learn how to plan and perform an effective second-party audit, compile audit reports, and close out findings.

The one day course is structured to optimize your learning using our unique approach to accelerated learning, and it will consist of a blend of practical activities, group discussions and classroom learning.

Our course agenda

Day 1

- Course aims and structure
- Typical customer and organizational specific requirements, relating to second-party audits
- Typical manufacturing processes to be audited
- PFMEA and control plans
- Audit supplier's PFMEA and control plans
- Typical supplier risk assessment processes relating to auditing
- Audit a supplier to contribute to organization's supplier risk assessment process(es)
- Effectively utilizing audits for supplier monitoring and supplier QMS development
- Audit a supplier to contribute to organization's supplier monitoring process(es)
- Audit a supplier to develop their own QMS
- Reflection and feedback
