In-company training – Bespoke training at your location

We believe in delivering the training you want, right to your doorstep.

When you choose BSI In-company Training, you can select a course 'off-the-shelf' from our extensive range. You can then ask us to adapt a course to your specific needs, or you can request a completely bespoke course to be developed for you.

We will take the time to understand your company's learning needs so that we can develop a tailored training solution that satisfies your business objectives. Working with you, we'll help to develop your people, improve processes and enhance your systems.

Whichever option you choose, you can be sure that you will be trained by a tutor who has practical experience under their belt and who understands your marketplace.

Nippon Gohsei's experience with BSI

"Once the decision had been made to embark on a business improvement programme, we took advice from a number of companies who had experience of implementing the Lean Six Sigma approach.

The decision was made very carefully, making sure that we didn't dive into something that was going to result in excess cost, be an improvement 'whim' and not prove a corporate priority.

Having discussed our aims with BSI, we found them very honest in what we needed to do as a business and we have taken time to slowly embed a cultural change which is now reaping rewards."

Why choose In-company Training with BSI?

Embed your learning

Our aim is to do more than just deliver the course – we want to embed learning and ensure that your people gain long-term benefits from their training and perform their jobs effectively so that you see the return in your investment of your people.

Exclusivity

Each in-company training session is exclusive to your organization – you can introduce company sensitive or market competitive information into sessions, without commercial compromise.

Made to measure

From large blue chip organizations to SME businesses and every type of company in-between, our customers have found our In-company Training programmes offer them an exceptionally effective, bespoke training solution – your course is designed based on the development needs of your workforce which will help retain and attract talent over the longer-term.

You're in control

You can enhance the effectiveness of your training programme by incorporating a real live audit with the assistance of your tutor – making the course more relevant to you and your business as well as helping you to avoid possible non-compliance at real audit stage, thus saving you time and resource fixing problems.

Flexibility

BSI In-company Training is as flexible and adaptable as it is effective – ensuring that you get the best possible learning experience and retain business as usual efficiency.

Cost savings

There are clear cost savings to be made – you save on travel, accommodation expenses and employee's time.

Coca Cola Enterprises experience with BSI

“Our recent experience of working closely with BSI to deliver bespoke, in-company training has been excellent. The commitment and enthusiasm shown by the BSI team to understand our business and then design the training package was commendable. The trainers were knowledgeable, friendly and they adapted their delivery style according to the group. The post training support to embed the learning has also been outstanding.”
