Need to protect your information?

Take action with BSI's ISO/IEC 27001.

bsi.

...making excellence a habit.™

BSI's ISO/IEC 27001 – your first choice for information security.

BSI is the business standards company that helps organizations make excellence a habit – all over the world. That's our business, enabling others to perform better.

With over 70,000 clients in 150 countries, our clients can trust BSI to help them perform better, reduce risk and grow sustainably.

Our clients range from top global brands to small ambitious businesses. Our people have taken the time to understand their challenges, and see the opportunities to share learnings.

Clients enjoy the benefits of working with experienced BSI trainers and assessors. Our people will ensure your staff are competent and fully able to implement best practices in risk management that are tried and tested.

We talk with, and listen to clients every day, via our 'Voice of the Customer' survey. We ask them what they want and how satisfied they are with our products and services, so that we make sure we are meeting their expectations and giving them the opportunity to tell us their thoughts.
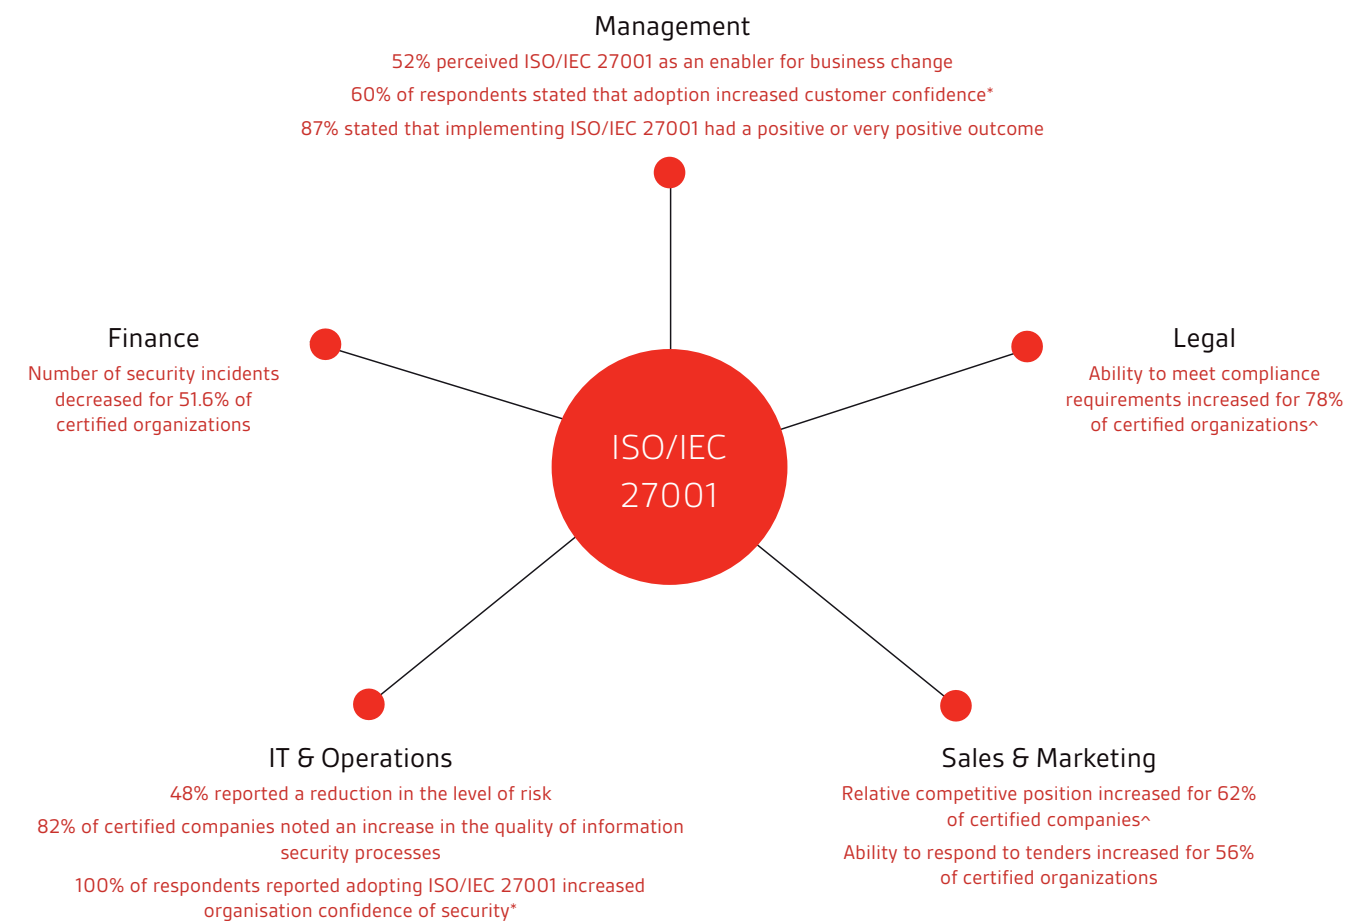

Put sensitive customer and company information in the safe hands of ISO/IEC 27001.

You simply can't be too careful when it comes to protecting personal records and commercially sensitive information. Work towards safeguarding your company and customer information from intentional or unintentional destruction and unauthorised access through the implementation of an ISO/IEC 27001 compliant information security management system with BSI.

ISO/IEC 27001 will help your business comply with increased government regulation and tough industry specific requirements. And by working with BSI to put such rigorous security measures in place you can reinforce your company's reputation and secure new business.

BSI has the expertise to help businesses safeguard the confidentiality, integrity and availability of information, whether it's written, spoken or electronic. Many companies have worked successfully with BSI to embed the principles of information security into their way of working. As a result senior decision makers in a variety of departments and sectors have reported major benefits:

The benefits our certified clients have enjoyed speak for themselves:

Management
52% perceived ISO/IEC 27001 as an enabler for business change

Finance
Number of security incidents decreased for 51.6% of certified organizations

Legal
Ability to meet compliance requirements increased for 78% of certified organizations^

ISO/IEC 27001

IT & Operations
48% reported a reduction in the level of risk
82% of certified companies noted an increase in the quality of information security processes
100% of respondents reported adopting ISO/IEC 27001 increased organisation confidence of security*

Sales & Marketing
Relative competitive position increased for 62% of certified companies^
Ability to respond to tenders increased for 56% of certified organizations

Information is a valuable organizational asset that can make or break a business. When properly managed it allows organizations to operate with confidence and gives them freedom to grow, innovate and broaden their customer base in the knowledge that all their confidential information will remain that way.

Whether you are new to information security management or looking to enhance your current systems, we have the right training courses, resources and services for you. We provide packages that can be customized to include only the services and products you need – reducing the cost and complexity of achieving compliance with ISO/IEC 27001. Your BSI team can provide all the support you need, from helping you understand the process through to implementation and achieving certification.

"ISO/IEC 27001 is becoming a common standard for compliance; two-fifths of large organizations have been asked by their customers to comply with the ISO. ISO/IEC 27001 is increasingly becoming the lingua franca for information security."
