

Digital trust courses and qualifications

Add value to your organization,
whilst progressing your career

Accelerating digital trust and transformation

Digital development is driving the next generation society. As we become increasingly reliant on a digital economy, it's vital that we build the trust needed for society to benefit.

Our courses and qualifications can help you gain the knowledge and skills needed to build resilience in your organization, whilst developing your career.

Browse our portfolio, covering the key challenges in this rapidly evolving space.

Information security

Cybersecurity

Privacy & data protection

Cloud security

Artificial intelligence

Information security

Protecting personal records and commercially sensitive information is critical. ISO 27001 helps you implement a robust approach to managing information security.

Browse our range of courses and qualifications.

Information security ISO 27001:2022

Our courses provide the ideal next step in your learning journey, including:

- [Awareness](#)
- [Requirements](#)
- [Implementation / implement changes](#)
- [Lead implementer](#)
- [Internal auditor](#)
- [Lead auditor](#)

Earn a BSI ISO/IEC 27001 qualification, validating your expertise

ISO/IEC 27002 Information Security Controls Implementation

Learn to implement commonly accepted information security controls, either as part of an ISO/IEC 27001 information security management system (ISMS) or as a standalone activity using ISO/IEC 27002.

ISO/IEC 27005 Risk Management

Master the risk management process related to all assets of relevance for Information Security using the ISO/IEC 27005 standard as a reference framework.

Information Security Controls for Cloud Services (ISO/IEC 27017:2015)

This course helps you clearly identify who is responsible to manage the different security risks and ensure the appropriate cloud security controls are in place so you can maintain a resilient ISMS.

ISO/SAE 21434:2021 Vehicle Cybersecurity Requirements On-demand eLearning

This four-hour on-demand course will provide the knowledge required to manage cybersecurity in automotive engineering.

NIST Cybersecurity Framework Maintaining and Auditing

Learn to identify key benefits of maintenance and measuring, recognize best practice auditing processes and techniques

Cybersecurity

Gain the knowledge and skills needed to build resilience around information security and data management with accredited courses.

Browse our growing range of cybersecurity courses.

Certified Network Defender (CND) eLearning

The CND certification program focuses on training Network Administrators to protect, detect, respond to, and predict threats on the network.

Certified Chief Information Security Officer (CCISO)

If you're building a career in Data Protection and Privacy this IAPP certified CIPM course is a must-have qualification to help you progress. A globally recognized certification that demonstrates your competence as a DPO.

Certified Ethical Hacker (CEH) eLearning

This course focuses on auditing and performing security tests on current networks, reporting vulnerabilities with actionable recommendations, analyzing security policies for improvements, maintaining security tools and technologies, and collaborating with senior stakeholders to enhance company processes.

Certified Secure Computer User (CSCU) eLearning

The purpose of the CSCU training program is to provide individuals with the necessary knowledge & skills to protect their information assets.

ISO/IEC 27400:2022 Cybersecurity - IoT Security and Privacy - guidelines - introduction On-demand eLearning

Learn to clearly identify who is responsible to manage the different security risks and ensure the appropriate cloud security controls are in place so you can maintain a resilient ISMS.

Cybersecurity and Data Protection for Small Businesses

Learn about the different types of cyber threats, defense mechanisms, and the best practices for ensuring personal and organizational security in the digital age.

Privacy and data protection

In today's changing regulatory landscape, make sure you're best prepared to protect personal information and become a recognized privacy professional.

Browse our range of courses and qualifications.

General Data Protection Regulation (GDPR): Foundation Level

Understand the concept of GDPR and gain knowledge of the fundamentals of the regulation.

GDPR Data Protection and Privacy Implementation

Gain the confidence to interpret data protection regulations and have greater ability to identify potential non-compliances with the GDPR.

Privacy Awareness On-demand eLearning

introduces the concept of privacy in the workplace and provides an overview of why privacy matters and outlines basic steps that employees can take to contribute to effective privacy management in your organization.

Privacy information management ISO/IEC 27701 Requirements

Understand the principles of ISO/IEC 27701 and the changes required to extend your ISMS.

Privacy information management ISO/IEC 27701 Implementation

Learn how to implement the principles of ISO/IEC 27701 and understand how the requirements provide the basis of an effective PIMS.

Cloud security

Manage cloud security risk, from cloud control implementation and auditing techniques to defining roles and responsibilities for data.

Browse our range of cloud security courses.

Auditing Cloud Security for STAR Certification

Led by an experienced tutor, this one-day course will help you learn how to audit cloud security for the STAR certification program and learn how to apply the maturity model when auditing a provider's security controls.

Certified STAR Auditor

Learn how to conduct an audit for STAR certification and will work through a detailed case study to teach you how to determine a rating for STAR certification. To successfully complete this course, you will need to pass an examination.

CSA Star: The Cloud Security and Privacy Governance and Compliance Program on-demand eLearning

If you need to understand the CSA Star and are confident enough not to need tutor-led training, you can opt for an online, self-paced version of our CSA Star: The Cloud Security and Privacy Governance and Compliance Program on-demand eLearning course.

Internet of Things (IoT) Fundamentals

Get an overview into the interoperability challenges, cybersecurity threats and where IoT can provide the greatest benefits.

Artificial intelligence

Navigate the complex and rapidly evolving landscape of Artificial intelligence (AI) regulation.

Browse our growing range of AI courses.

ISO/IEC 42001:2023 Artificial Intelligence Management System (AIMS)

Our courses provide the ideal next step in your learning journey, including:

- [Awareness](#)
- [Requirements](#)
- [Implementation](#)
- [Lead implementer](#)
- [Internal auditor](#)
- [Lead auditor](#)

ISO/IEC 22989:2023 Understanding AI Concepts and Terminology

This course will provide you with an understanding of the main concepts of AI and AI systems to complement your knowledge of management system standards.

Understanding and Implementing an AI System Impact Assessment

This course will provide you with the understanding and tools to conduct an AI System Impact Assessment, either in isolation or as part of an ISO/IEC 42001:12023 AI management system.

Guidance on Risk Management - ISO/IEC 23894:2023

Turn your reactive organization into a proactive one by gaining an awareness of risk management specifically related to AI.

BS ISO/IEC 24027:2021 Bias in AI systems and AI aided decision-making Awareness On-demand eLearning

The aim of this course is to introduce participants to the organizational and regulatory importance of ISO/IEC 23894:2023 as a risk management standard.

Learn in a way that works for you

Access flexible learning in a format that works for you.

We understand that people learn in different ways, so we've devised a range of delivery formats to suit all needs.

Whether you prefer learning at your own pace through distance learning or enjoy the challenge and interaction in classroom-based learning – we can provide a format you will be comfortable with.

Live online training

Learn from the comfort of your home, for convenience

On-demand eLearning

Self-paced, online, available 24/7 – for complete flexibility

Classroom-based training

Convenient location and dates, in-person with like-minded learners

In-house training

In-person or online, adapted to your organization's needs

“Tutor was knowledgeable, made everything easy to learn and used his experience of real-life situations to introduce the validity of each lesson”
