Implementing ISO 9001:2015 training course

Essential information about the course

Level

ISO 9001 is the world's leading management system standard. That's why organizations around the world invest in training their people so they have the skills and the knowledge to benefit from it.

If you've already got a thorough understanding of ISO 9001 and need to implement the standard in your organization, then this course is for you. Most delegates on this course have already attended our ISO 9001:2015 Requirements course and are ready to take their knowledge further as they put the

management system in place in their organization. You will learn vital skills for implementing ISO 9001 including how to apply the Plan-Do-Check-Act (PDCA) cycle as well as how to carry out a gap-assessment.

The two-day course is structured to optimize your learning using our unique approach to accelerated learning, and it will consist of a blend of practical activities, group discussions and classroom learning.

“Great course, excellent tools and examples to practically apply the theoretical knowledge acquired” Rhea Systems, UK-based manufacturing company
