

BSI Training Academy

Implementing ISO 44001:2017 training course

Essential information about the course

Level 

ISO 44001 Collaborative Relationship Management makes good business sense. Make it your business to deliver the benefits of collaborative working and lead excellent partnerships in your organization.

This two day Implementing training course will give you the relevant knowledge to establish an implementation approach to support the evaluation, deployment and certification to the ISO 44001 Collaborative Relationship Management framework.

Your learning is based around industry best practice outlined in the standard, where the course will be led by a BSI expert tutor in a relaxed and comfortable learning environment. Find out how to challenge and innovate to get the best out of partnerships and deliver real benefits. An ISO 44001 approach can help your company achieve greater efficiency by sharing skills and resources whilst reducing cost and risk.

...making excellence a habit.™

Implementing ISO 44001 training course

We want to make sure you have the best learning experience possible. That's why we offer a range of training courses from beginner to expert. We create a positive learning environment so you retain the knowledge and acquire skills that will continue to be of use beyond the course.

Make sure this is the right course for you.

This course is for you if:

- You already have a thorough knowledge of ISO 44001:2017 as well as basic understanding of other management systems, such as ISO 9001, ISO 14001
- You are a Manager who is responsible for developing ISO 44001:2017 management systems
- You are an Operational Manager involved in collaborative working
- You are a Senior Executive who wants a better understanding of the impacts of ISO 44001:2017 on the organization
- You have been implementing a BS 11000 collaborative system and need to understand the changes for ISO 44001:2017

What will I learn?

This two-day course follows this structure:

- A typical framework for implementing ISO 44001:2017 following the PDCA cycle
- Considering key concepts and requirements of ISO 44001:2017 from an implementation perspective
- Implementing key concepts and requirements of ISO 44001:2017
- Specific documented information requirements of ISO 44001:2017
- Using gap analysis to conduct a baseline review of your current system

How will I benefit?

- Understand the background to the key requirements of the ISO 44001:2017 Collaborative Business Relationship framework
- Evaluate the level of effectiveness in current operating practice
- Identify the links to existing operating practice
- Identify the GAPS to be addressed to meet the requirements of ISO 44001:2017
- Provide an initial benchmark of compliance
- Establish a basis for an action plan for implementation
- Identify opportunities for collaborative working and strengths/weaknesses of current operating practices
- Establish action plan priorities and assign roles
