

**Kevin Wong**

Head of Built Environment, BSI APAC

Kevin is an active leader in standard business, working with global brands, governments, universities and industry associations to bring their requirements into acceptable market compliance with Regulatory and Performance requirement.

He is a Hong Kong citizen and currently the Head of Built Environment and Publishing Portfolio Director of BSI Asia Pacific region for BSI Group covering Australia/New Zealand, Japan, Korea, Taiwan, China, Vietnam, Thailand, Singapore, Malaysia, India, Indonesia Philippines and Hong Kong.

Kevin has Civil and Structural Engineering Degree and a Master Degree in Information Technology, with 20 years work experience in the International Standards, construction design management and construction products sector. His positions include international management postings working as a Regional director, Regional Sales Manager, and engineer for internationally recognized companies, gained from postings in Hong Kong and China servicing Asia Pacific.

BSI originated majority of the world's most recognized standards including BIM Standard suites like ISO 19650 and PAS 1192; also the ISO 9001, ISO 14001 and ISO 45001 which started as British Standards.

BSI, a Royal Charter company founded in 1901 with its core business focused on Organizational Resilience, Standards Creation, Certification and Training activities to help organisations manage risk and address today's business and reputational challenges. As a National Standards Body and founding member of ISO, BSI leads the way in shaping standards that help keep businesses relevant and ahead of emerging issues. New standards continue to be developed for Organizational Governance, Business Continuity Management, Information Security, Cloud Computing, Data Protection, Anti-bribery, Supply Chain Pre-qualification, Energy and Water Management, Smart Cities and Building Information Modeling, to help address today's new business challenges.
