

ISO 41001:2018 Facility Management Systems Implementation

Training course

Essential information about the course

In a globally-competitive environment, Facility Management (FM) organizations and providers need to communicate among themselves and with interested parties using common principles, concepts and terms, including the assessment and measurement of performance. This is the primary driver for, and purpose of the standard ISO 41001:2018.

This two-day course will equip you with the required skills to conduct a base-line review of your organization's current position and implement the key principles of ISO 41001. Using a step-by-step approach, you'll learn how to develop an implementation plan, create necessary documentation and monitor your Facility Management System (FMS).

Our course agenda

Day 1	Day 2
<ul style="list-style-type: none">• Course aims, objectives and structure• ISO 41001 FMS overview• Implementing an FMS• Project management process and PDCA• Context of your organization• FMS process approach• Documented information• Baseline gap analysis• Project plan• Leadership• Facilitating leadership and commitment• Planning• Risks and opportunities	<ul style="list-style-type: none">• Planning• Policy and objectives• Support• Knowledge and competence• Documented information• Operation• Criteria for external providers• Performance evaluation• Monitoring and measurement activities• Improvement• Improvement inputs• Implementation feedback to management <p>Book today at bsigroup.com/training</p>
