

CogentHub enhanced customer trust through BSI Quality, Information Security and Privacy Information Management System certifications

CogentHub is a global provider focused on the delivery of business solutions integrated with the latest technologies. We bring together data and technology to enable our clients to attain their strategic business goals and gain competitive advantage. With our considerable experience across several industries and technology expertise, we deliver outsourcing and management consulting services.

CogentHub, are among the leading organizations to achieve ISO certification in ISO 9001, ISO 27001 and ISO 27701 certified by British Standard Institution (BSI) to provide you with the latest International Standards in Quality Management and Privacy.

These certifications supported CogentHub in creating the following:

1. Support compliance to privacy regulations.
2. Provide confidence to stakeholders and customers.
3. Clear roles & responsibilities.
4. Minimizing the risk.

CogentHub Private Limited

“We are very grateful to BSI for helping and guiding us in achieving the ISO 27001 and ISO 9001 certificates. We would also like to thank BSI for enabling the effortless transition from ISO 27001 certificate to ISO 27701 certificate, which has helped us handle a massive amount of third-party data with absolute security. Your cooperation has helped our business achieve the high-quality service standards that we provide for our global customers. We look forward to having a long and fruitful business relationship with the BSI.”

Avinash Vasa
Director and Chief
Executive Officer

The benefits

ISO 27701 Privacy Information Management
- Implementation has enabled us to handle huge amount of third-party data with absolute security.

ISO 27001 Information Security Management
- provides controls for general security measures. Using them enables CogentHub to manage the security of assets such as financial information, intellectual property, employee details or information entrusted by third parties.

ISO 9001 Quality Management Systems - It demonstrates the ability of CogentHub to meet the requirements for a quality management system. It also shows that we can consistently provide products that meet statutory and customer needs and work towards continually improving our practices to deliver a superior service.

BSI solution

At CogentHub, we offer detailed research, process analysis and understanding to present high-quality business data. We realize the value of quality control and data protection. Hence, we have undertaken ISO certification in ISO 27701, ISO 27001 and ISO 9001. Every business has three basic protocols for its success:

- Comply with customer requirements and government regulations and standards
- Protect the organization through embedding quality and instituting best practices
- Grow the organization, extending the customer reach and satisfaction, thereby increasing revenue

BSI Management systems allow organizations to meet these challenges by instilling best practices and validating, through certification, that they are established correctly in the company.

Why BSI?

BSI certification demonstrates to our customers, competitors, suppliers, staff and investors that we are committed to be the best we can be.
