BSI Training Academy BSI auditor qualifications

Assuring confidence
in your auditing expertise

BSI Auditor Qualifications

A qualified auditor can help inspire trust in your customers – by making sure that your products and services always deliver what they should.

Effective auditing can bring a host of benefits to your organization including:

- Cost savings
- Reduced waste
- Increased efficiency
- Improved sustainability

Excellence isn't just about auditing for compliance – that's the baseline for effectiveness.

An expert auditor looks at ways in which your improvement initiatives are adding value to your organization and to your customers.

Developing your skills and competence can make a real difference.

And now you can demonstrate your value as an auditor by earning a qualification with BSI.

BSI – the auditing experts

Auditor qualifications – put a mark of trust on your skills.

We have a global team of auditors who deliver thousands of audit days a year, and we've used that expertise to develop BSI's auditor qualifications. We deliver:

- Over 230,000 audit days a year – on-site and virtually
- Over 50,000 auditor training days delivered last year – on-site, in virtual classrooms and in convenient locations

You'll benefit from our trusted experience.

A mark of trust for your expertise

By successfully completing set courses and assessments, you'll earn a BSI mark of trust, assuring confidence in your auditing expertise.

1 Practitioner

As a practitioner, you'll demonstrate you can audit for conformance and effectiveness

2 Professional

As a professional, you'll add extra value by auditing improvement initiatives. You'll learn to use trusted tools and techniques for process improvement

3 Certified Professional

Having your qualification certified will prove your qualified skills are up-to-date

“BSI tutors are experts in their subject matter, the tutor unpacked the content and context of the course in a very user friendly and understandable way.”

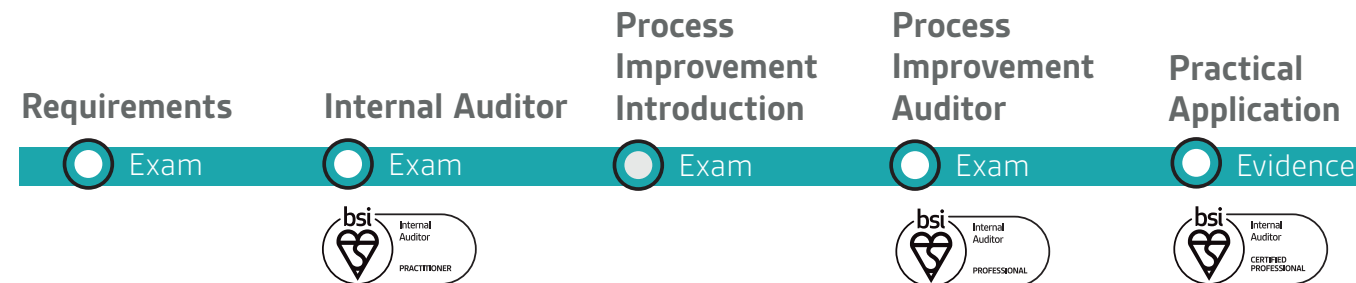

Training delegate, South Africa

Auditing management system standards

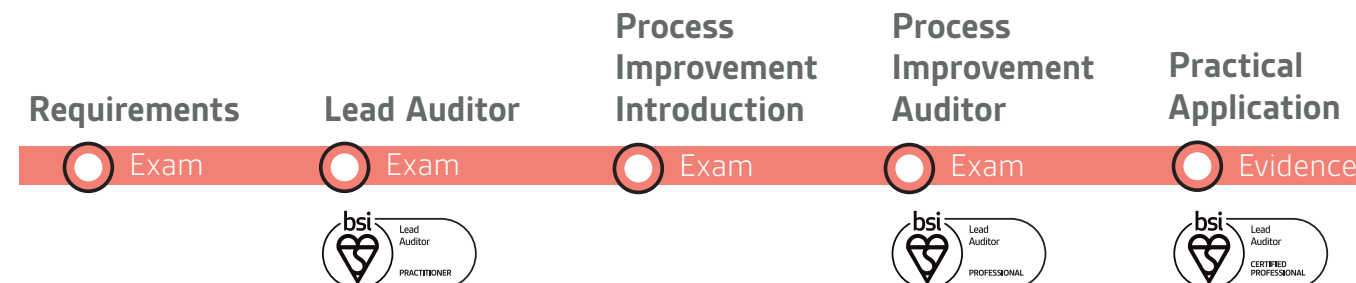

You can choose from a wide range of the most popular management system standards:

- Quality – ISO 9001
- Environment – ISO 14001
- Occupational Health and Safety – ISO 45001
- Information Security – ISO/IEC 27001
- Medical Devices – ISO 13485

Internal Auditor

Lead Auditor

How your qualification is assessed

There's an exam at each stage to test your understanding.

In some cases, if you can demonstrate previous learning or expertise, you may be eligible for accreditation of prior learning.

How you can become certified

You'll submit an application form listing example audits. Your line manager or audit client will be asked provide feedback based on an observation or participation in an audit. We'll also ask you for evidence of CPD to support your ongoing learning and development.
