...making excellence a habit.™

Make the most of EU ETS with BSI's verification services.

Our knowledge, expertise and drive can transform your organization.

1. For more than a century we have been challenging complacency to help our clients perform better, reduce risk and achieve sustainable growth.

2. BSI is renowned for its innovative work in this field, constantly introducing new ways to tackle the ever-changing challenges to business.

3. You can enjoy the benefits of working with BSI teams who have extensive experience helping businesses improve performance in an array of different sectors. They can help you understand the challenges and share their knowledge.

4. We provide end-to-end support, helping you monitor and maintain your excellence through our proprietary software and compliance tools.

5. We talk with, and listen to clients like you every day, asking them what they want and how satisfied they are with our products and services. This way we can make sure we are responding to the needs of our clients as they arise.

6. BSI invests heavily in recruiting and developing the best assessors, who scored on average 9.2/10 in our Global Client Satisfaction Survey.

Meet your mandatory requirements and enhance your corporate reputation with BSI verification.

It is mandatory for companies and aircraft operators who fall under European Union Emissions Trading System (EU ETS) regulation to report and independently verify annual emissions. CO_2 emissions data must be submitted and reported annually by 31 March the following year. We are now in Phase III which will run until December 2020.

The first step for an organization is to quantify its Green House Gas (GHG) emissions
Once you have the data you will be assigned one of our UKAS approved verifiers who will verify this data. EU ETS verification from BSI embraces the highest standards of quality assurance and quality control procedures in the industry to help you to undertake your emissions data accurately, effectively and efficiently.
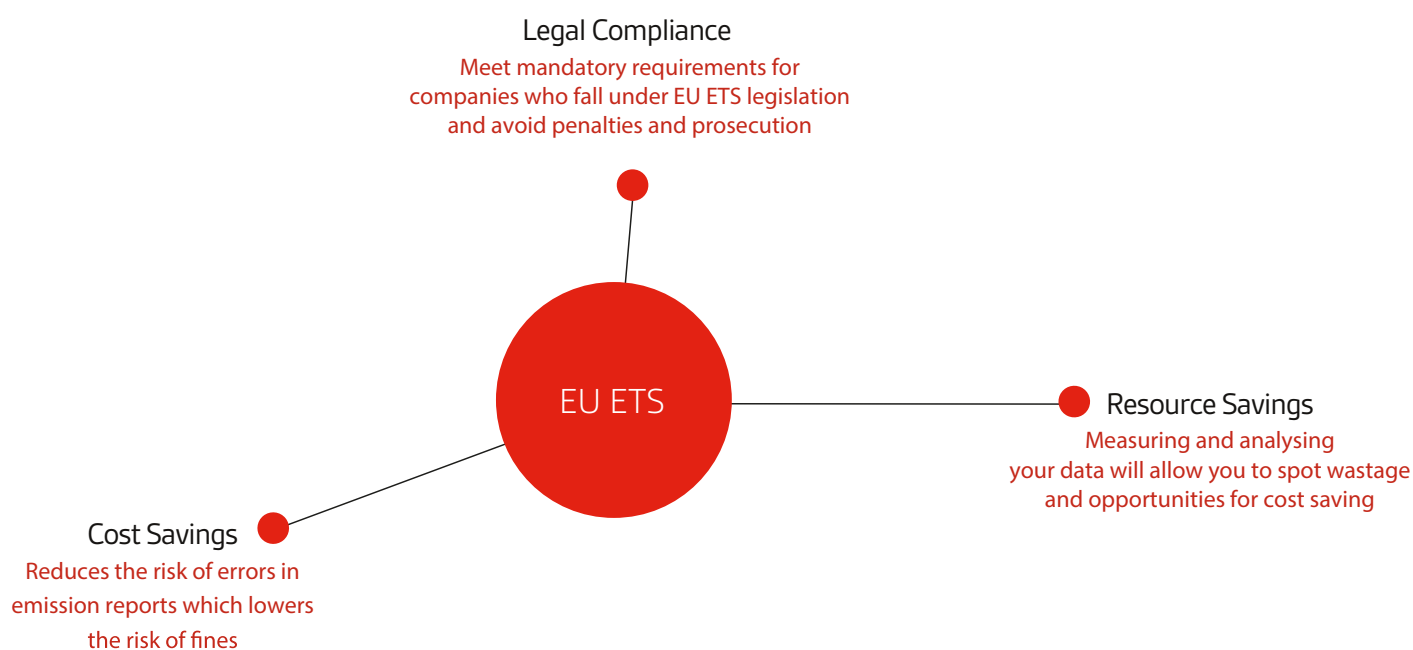

We have a wealth of experience in providing verification services to clients since phase I in 2005.

Our dedicated internal team of assessors and verifiers have a profound \knowledge of EU ETS. As an active member of the UK Emissions Trading Group we have played an important part in shaping current EU ETS legislation.

Your EU ETS audit will include:

- An assessment of your approved monitoring plan against the requirements of the Monitoring and Reporting Regulation to ensure it is both accurate and complete
- An assessment of how you have implemented your approved monitoring plan
- An assessment of the accuracy and completenes of your annual emissions report
- Verification of the your annual emissions report
- An interface with the EU Registry in confirming and approving your reported annual emissions

The benefits our verified clients have enjoyed speak for themselves:

Legal Compliance
Meet mandatory requirements for companies who fall under EU ETS legislation and avoid penalties and prosecution

EU ETS

Resource Savings
Measuring and analysing your data will allow you to spot wastage and opportunities for cost saving

Cost Savings
Reduces the risk of errors in emission reports which lowers the risk of fines

We have worked with a wide range of organizations and have experience verifying emissions associated to both combustion and process emissions from a variety of traditional and complex fuels.
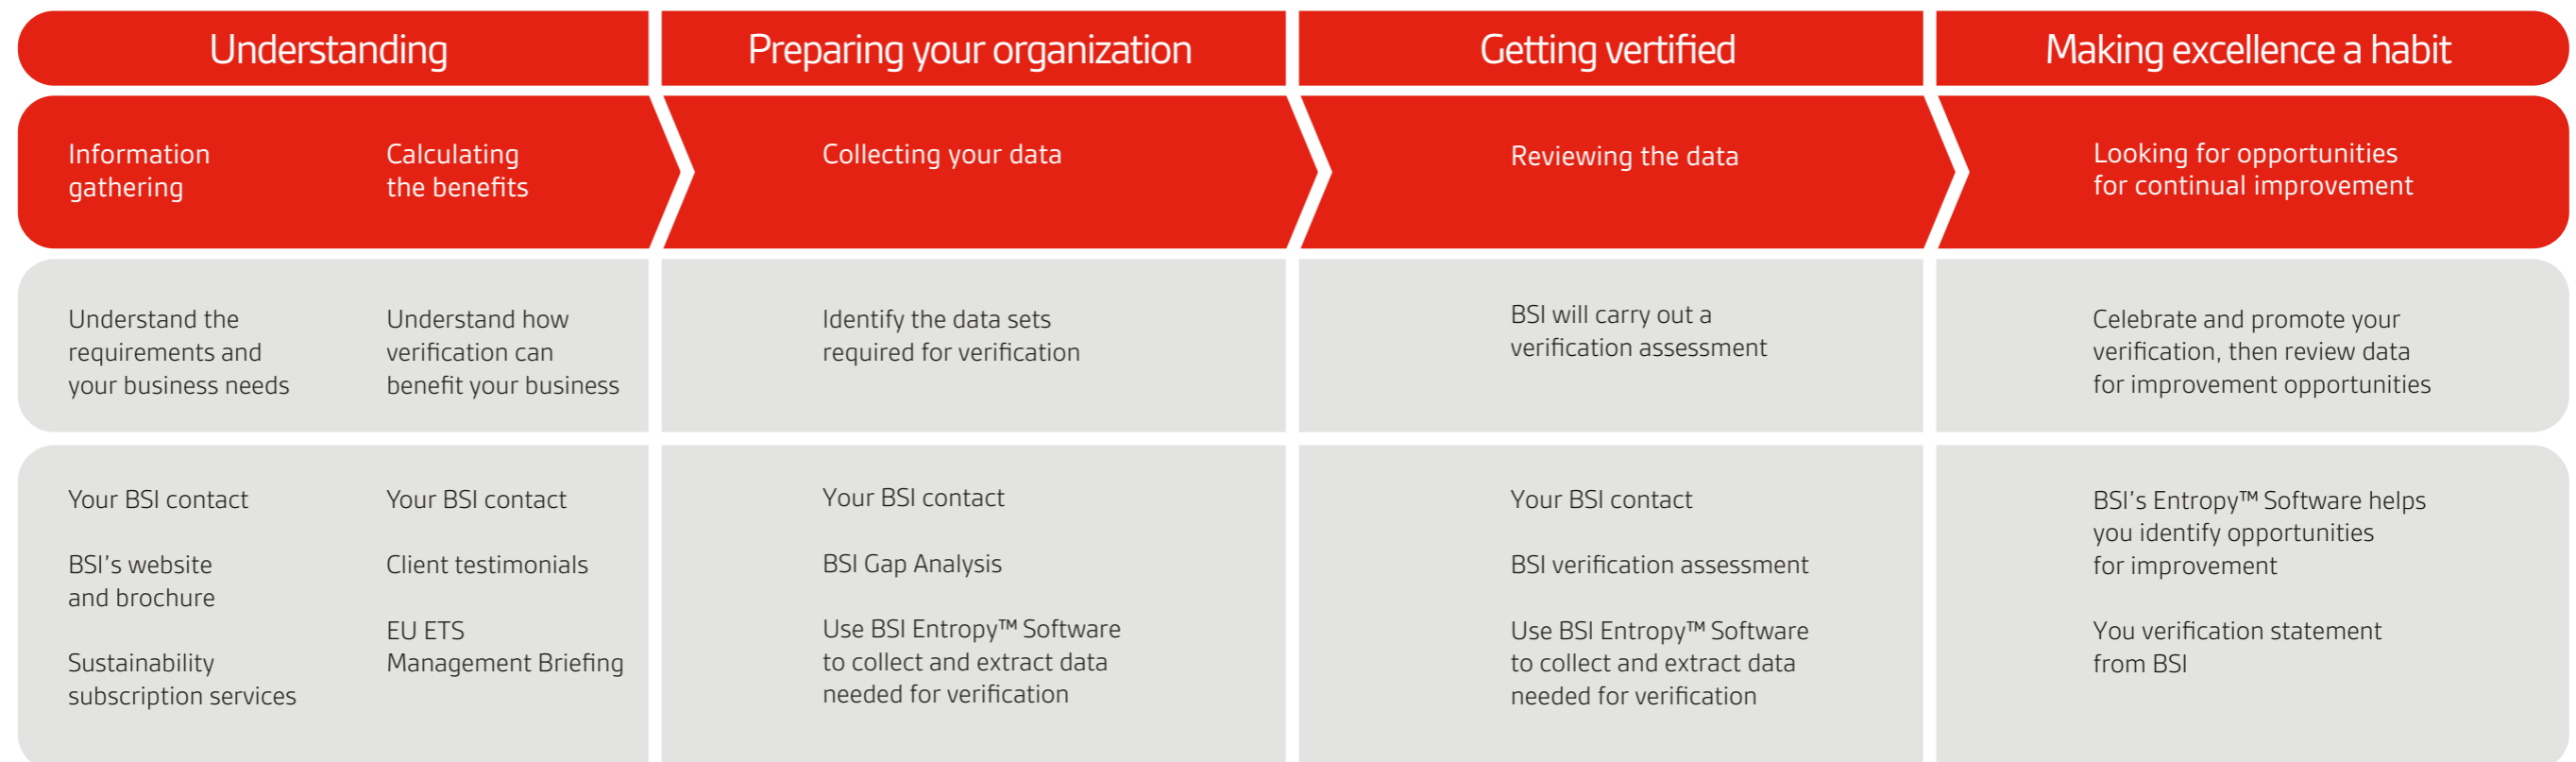

Our clients include:

• Multinationals who require multi-site verification
• Operators with complex sites including several annexed activities
• Single sited companies
• Operators eligible for low emitter status
• Trade associations who manage carbon reporting for their clients
• Large national power generators to small combustion plants

"We have used BSI's EU ETS verification services since 2004. We have found them to be very thorough in their approach and their staff to be highly experienced with a comprehensive understanding of our industry. They have also been very competitive with their pricing and deliver on time. Overall we are very satisfied with the services that BSI are providing."

CEMEX

A simple guide for your EU ETS Verification journey with BSI

	Understanding		Preparing your organization	Getting vertified	Making excellence a habit
Step	Information gathering	Calculating the benefits	Collecting your data	Reviewing the data	Looking for opportunities for continual improvement
