Welcome to Update Standards

In these pages you'll find details of new, revised, draft and withdrawn standards and publications from the last month.

Update Standards is changing in the next few months. We would like our Members to have their say on this development to ensure we deliver standards information in the best way possible. Stay tuned for details.

Free expert help from our Knowledge Centre

Our information professionals will take the hassle out of your standards and subject searches by doing them for you. They can provide you with information on what a standard covers, carry out subject searches and even provide you with expanded information on what a standard covers through keyword searches, saving you a huge amount of time and effort. They'll also search for standards from over 200 standards organizations in 23 countries if that's what you need.

This service is available exclusively for BSI Members only. To find out more about what the Knowledge Centre can do for you, contact us today:

The reassuringly easy way to work with standards

BSOL is a simple online tool that gives you instant access to the standards you need, making life a lot easier. It's easy to build your own database of relevant standards. Then you can find what you need fast and stay right up to date – so you can avoid costly errors and work with confidence.

Know you're covered

Save time

Manage all your standards in one place. You can access ISO, EN, BS ASTM and IEC standards through BSOL – and it takes only seconds to search.

Save money

Make standards even better value for money. Using BSOL gives you large savings on your traditional standards spend.

Miss nothing

Get an alert whenever a standard changes and understand the significance immediately. Then view the differences to key standards, so you can track exactly how they've changed.

Reduce risk

Track past, present and future changes. With access to historic and emerging standards, you can see the guidance that informed previous decisions, as well as changes that could shape your future moves.

Fit the way you work

Tailored to you

Subscribe only to the standards you need, use pre-built modules or build personal collections.

Full flexibility

You can still access every standard in the system and update your choices at any time.

Easy monitoring

Monitor which standards your users are working with, and easily spot gaps or overlaps.

Free and unlimited training

Our training team are here to give you extra support if you need it.

Make life easier with BSOL.

What is a PAS?

A PAS (Publicly Available Specification) is a fast-track standardization document – the result of an expert consulting service from BSI. It defines good practice for a product, service or process. It's a powerful way to establish the integrity of an innovation or approach.

A PAS is:

- Sponsored by industry leaders, government and public sector, trade associations and professional bodies
- Developed by a steering group of stakeholders
- Co-branded with BSI
- A route to international standards

What can a PAS do?

- Raise your profile by co-branding with BSI
- Benchmark quality and influence the marketplace
- Create solutions led by stakeholder consensus
- Show leadership by improving quality

BRITISH STANDARDS

The following British Standard publications are available from BSI Customer Services (see 'How to order' on page 2).

The publications listed below are new and revised British Standards that were made available last month.

An existing BSI publication bearing a number identical to one announced below is automatically withdrawn unless stated otherwise.

In all other cases of supersession, details are given and a corresponding entry appears in the 'British Standards withdrawn' section.

BRITISH STANDARD IMPLEMENTATIONS WILL BE SUPPLIED IN PREFERENCE TO EUROPEAN OR INTERNATIONAL STANDARDS, UNLESS OTHERWISE REQUESTED.

Please order by the British Standard reference not the ISBN number.

BS 2000 series standards are also available from:-

Nominations for the BSI Standards Awards are now open!

The BSI Standards Awards have been running since 2014 and recognize exceptional contributions to standards-making and the benefits of using voluntary standards.

In the past the awards have focussed on standards makers, however, we now also include categories for standards users. The standards users awards will recognize how organizations have used a voluntary standard(s) to achieve a particular outcome – from resilience to innovation, cost savings to international trade and market access.

Everyone is welcome to make nominations for these awards and organizations can nominate themselves. Please be sure to read the relevant Guidance and Criteria document before you make a nomination.

Don't delay - nominations close 18 September.

*The Standards Users Awards do not constitute any form of certification or kitemark but simply offer a means of recognizing the benefits of using voluntary standards.

CORRIGENDA TO BRITISH STANDARDS

Most amendments are not issued separately. Those that make significant changes to a standard are incorporated into the standard which is reissued (see 'Updated British Standards'). British Standards which have been corrected via corrigenda are available on request, free of charge to past purchasers of the standard. All amendments and corrigenda to date of despatch are included within any main publication when ordered for the first time.

The following corrigenda to British Standards were made available last month.

BRITISH STANDARDS REVIEWED AND CONFIRMED

It is BSI policy for every standard to be reviewed by the technical committee responsible not more than five years after publication, to establish whether it is still current and, if it is not, to identify and set in hand appropriate action.

Confirmation indicates the continuing currency of a standard.

Where any standard in this list has been amended since publication, confirmation includes all amendments published to date. Reference to a particular amendment indicates that it is published concurrently with the confirmation.

NEW WORK STARTED

The reference number of the committee responsible for each item of new work started is given after each entry.

Where a work item has the temporary designation "EN XXXX", it has not yet been allocated a standard number by the European standards body.

All national standards (BS XXXX), apart from corrigenda, will be issued for public comment in due course. All drafts for public comment are available at <http://drafts.bsigroup.com>, where you can register and comment free of charge.

DRAFT BRITISH STANDARDS FOR PUBLIC COMMENT – NATIONAL BRITISH STANDARDS

The following national standards have all been issued, or are about to be issued, for public comment. You may comment online on any British Standard of national origin using the Standards Development Portal. You can register to the Standards Development portal at <https://standardsdevelopment.bsigroup.com/> This service is free of charge.

Deadlines for receipt of comments on each of the individual drafts can also be found at <https://standardsdevelopment.bsigroup.com/>

If you would like to receive these drafts in hard copy format, they are available for a fee from BSI Customer Services (see 'How to order' on page 2).

DRAFT BRITISH STANDARDS FOR PUBLIC COMMENT – ADOPTIONS

You may comment online on draft standards issued by BSI, ISO, IEC, CEN and CENELEC at the Standards Development Portal. The purpose of the website is to enhance access to Drafts for Public Comment for the wider community, make comments more visible and move into collaborative working practices. You can register to the Standards Development portal at <https://standardsdevelopment.bsigroup.com/> This service is free of charge.

If a particular draft you are looking for is not included, please contact BSI Customer services to enquire on the availability of the standard.

All draft British Standards are available in hard copy format from BSI Customer Services (see 'How to order' on page 2). Most drafts are charged at £10.00 to members and £20.00 for non-members.

Larger draft documents are charged at a higher price according to the number of pages and, are priced individually below.

Comments on all Draft British Standards are welcome and should be sent to Debbie Stead, Associate Director of Operations, BSI Group, 389 Chiswick High Road, London W4 4AL.

Draft standards may be modified before adoption and issue as British Standards.

BS 8521-2:2020 Social alarm systems. IP signalling protocols. Specification for NOW-IP.

As UK telecom providers continue to migrate towards Next Generation Networks (NGN), they're increasingly converging voice traffic onto their IP infrastructures. This can have an adverse impact on the reliability of in-call, tone-based protocols, which in turn jeopardizes the use of social alarm systems. To fix this emerging issue, we've now produced BS 8521-2:2020 Social alarm systems. IP signalling protocols. Specification for NOW-IP.

Take the smart route to medical device compliance with BSI's Compliance Navigator

A powerful workflow tool, Compliance Navigator holds over 3,500 documents essential for medical device compliance. And with multi-user access, it's available to your whole team.

Smart tools that save time and money

Compliance Navigator holds over 3,500 documents essential for medical device compliance. With true multi-user access, it's available to your entire team, *simultaneously*.

- **Alerts to changes**
You'll be alerted to upcoming BS standard changes, so you can plan accordingly.
- **Device-specific profiles**
You can create regulatory profiles for each product, so you have the information you need in one place – right down to what's relevant to each aspect of development.
- **A comprehensive source**
You can see the full text of the new Medical Device and IVD Regulations, standards, legislation and guidance, so *you don't miss anything*.
- **Expert commentary**
You'll interpret new standards correctly, as our experts provide context and guidance.
- **Track changes**
You'll find it easy to see what's new, with 'red line' changes between versions.
- **MDR/IVDR Smart Support**
Understand how the new regulations apply to your business and how to plan for the transition.

And you'll have a powerful tool that helps you avoid risk, stay competitive and maximize profitability.

Proceed with confidence

Use the most authoritative source of medical device standards information on the market. With over a century of experience, BSI is trusted by thousands of companies worldwide to help them stay compliant and grow their businesses.

'Compliance Navigator has made for an accelerated workflow....saving valuable time and cost, and with long-term benefits for patient safety.'

Free help from our Knowledge Centre

Let us take the hassle out of your standards and subject searches. We employ a team of information professionals, just for Members. They're dedicated to answering your questions on BSI standards and helping you with your standards-related queries. They will:

- Provide scope and content information on any standard
- Find standards through subject searches
- Give you expanded information on what a standard covers through keyword searches
- You can view full standards online or in printed format in our Members' Reading Room in London.

Our information and searches cover current and withdrawn British Standards as well as standards from over 200 standards organizations in 23 countries.

Contact the Knowledge Centre today to find out how we can help you with your standards searches. This service is available exclusively for BSI Members.
