ISO/IEC 27701:2019 Implementation

Training course

STAGE **1 2 3**

Essential information about the course

ISO/IEC 27701:2019 specifies the requirements and provides guidance for implementing a privacy information management system (PIMS) in the form of an extension to ISO/IEC 27001:2013 and ISO/IEC 27002:2013 for privacy management, within the context of your organization.

By attending our two-day course, you will understand how to implement the principles of ISO/IEC 27701:2019 and the required changes to extend your ISMS. It will help you understand how the requirements of ISO/IEC 27701 provide the basis of an effective PIMS and provides guidance for personally identifiable information (PII) controllers and/or processors, processing PII.

With the full support of a world-class BSI tutor, you'll learn about ISO/IEC 27701:2019 common terms and definitions, as well as the how to implement the key concepts and requirements.

Our course agenda

Day 1	Day 2
- Benefits to you, welcome and introductions - Course aim, objectives and structure - Background to ISO/IEC 27701 - Benefits of implementing ISO/IEC 27701 - Key terms and alternative terms - What is a PIMS? - PIMS Plan, Do, Check Act (PDCA) Cycle - Implementing a PIMS - Overall project management process and link to PDCA - Integration – High level structure - Project plan - Documentation - Clause 5 PIMS-specific implementation requirements relating to ISO/IEC 27001 - Clause 6 PIMS-specific implementation requirements related to ISO/IEC 27002 - End of day 1	- Review of day 1 quiz - Clause 7 additional implementation requirements and ISO/IEC 27002 guidance for PII controllers - Clause 8 additional ISO/IEC 27002 implementation guidance for PII processors - Annexes - Continual improvement - Course review and final questions - End of course

Upon successful completion of your course, you'll receive an internationally recognized BSI certificate.

Make sure the course is right for you

Who is this course for?

Anyone involved in planning, implementing, maintaining or supervising an ISO/IEC 27701 PIMS. The course is equally relevant to PII controllers and PII processors.

What will I learn?	What are the benefits?
The course covers the following specific learning objectives: Knowledge: • Recognize a typical framework for extending your ISO/IEC 27001 ISMS to include specific requirements and guidance for protecting personally identifiable information (PII) and implementing a PIMS • Interpret key requirements and guidance of ISO/IEC 27701 from both a PII controller and processor implementation perspective • Identify the benefits to your organization of implementing an ISO/IEC 27701 PIMS Skills: • Conduct a gap analysis of your organization's current compliance with the requirements of ISO/IEC 27701 • Implement the key requirements and guidance of ISO/IEC 27701	This course will help you to: • Recognize how to extend an ISO/IEC 27001 ISMS to include specific requirements for protecting your PII and implementing a PIMS (addressing both information security and privacy protection) • Identify where adjustments might need to be made to your ISMS to accommodate your situation and progress made to date, in respect of protecting privacy • Increase your knowledge of the requirements and guidance contained within ISO 27701, from an implementation perspective Your learning will be through an activity-based, delegate-centred approach. This will help you share experiences and knowledge with other attendees; bringing alive the information presented and resulting in enhanced retention and application to your own workplace.

Prerequisites - you are expected to have the following prior knowledge:

You should already have a good knowledge of implementing an ISMS based on ISO/IEC 27001 and ISO/IEC 27002 and be looking to extend your ISMS to include privacy information management.
A good knowledge of PIMS requirements and terminology is recommended.
You should have previously attended an ISO/IEC 27701 requirements course and we also recommend delegates understand whether a PIMS is currently employed in their organizations.

Why invest in training from BSI?

We want to make sure you have the best learning experience possible. That's why we offer a range of training courses from beginner to expert. We create a positive learning environment so you retain the knowledge and acquire the skills that will continue to be of use beyond the course.

When you attend a BSI training course, our tutors are the best in the business. They're truly passionate about sharing their knowledge and ensuring you learn. Trusted experts with years of hands-on and business experience, they bring the subject matter to life with relevant and contemporary examples to enhance your learning.

Training delivered at your site could be a convenient and cost effective option, especially if you have multiple delegates. Talk to one of our experts to find out more.
